

European Workshop on Education and Training in Medical Radiation Protection

April 21–23, 2012, Athens, Greece

The MEDRAPET workshop aims to facilitate the discussion on issues related to radiation protection education and training of medical professionals in the EU member states.

The MEDRAPET project is currently conducting a study to determine the status of medical radiation protection education and training in EU member states. The results of this study will be discussed at the workshop and the outcomes will form the basis for European Guidance on radiation protection education and training of medical professionals.

The workshop provides a platform for all medical professionals to exchange knowledge, share experience and discuss challenges and solutions to existing problems known in radiation protection education and training.

Attendance is free of charge, preregistration until 18th December 2011 is mandatory as places are limited. Applicants who submit an abstract to the workshop will have preference.

Abstract submission deadline is 5th December 2011.

More information available at www.medrapet.eu/workshop

The MEDRAPET project is financially supported by the European Commission.
